ISO/IEC 42001:2023 Lead Auditor

Duration: 5 Days

COURSE DESCRIPTION

Auditing is crucial to the success of any management system. As a result, it carries with it heavy responsibilities, tough challenges and complex problems. This five-day intensive course trains AIMS auditors to lead, plan, manage and implement an audit plan. It also empowers them to give practical help and information to those who are working towards certification and also provides the knowledge and skill required to carry out second-party auditing (suppliers and subcontractors).

COURSE OBJECTIVES

Explain the purpose and business benefits of:

- Artificial intelligence management systems (AIMS), AIMS standards
- Management system audit
- Third-party certification

Explain the role of an auditor to plan, conduct, report and follow up an AIMS audit in accordance with ISO 19011 (and ISO 17021 where appropriate).

Have the skills to: Plan, conduct, report, and follow up an audit of an AIMS to establish conformity (or otherwise) with ISO/IEC 42001, ISO 19011 (and ISO 17021 where appropriate)

What are the benefits?

Effective auditing helps to ensure that the measures you put in place to protect your organization and your customers are properly managed and achieve the desired result.
