

CompTIA AutoOps+

E-Learning

COURSE DESCRIPTION

CompTIA AutoOps+ validates your skills to automate, secure, and optimize IT operations across cloud and hybrid environments. As part of CompTIA's new Expansion Series, AutoOps+ is designed to augment your core IT competencies with specialized expertise in automation, scripting, and infrastructure management. Gain hands-on experience to bridge traditional IT roles with modern DevOps practices.

COURSE OBJECTIVE

- Use scripting and automation to streamline IT workflows and manage enterprise systems efficiently.
- Automate configuration, provisioning, and maintenance using infrastructure-as-code and modern toolchains.
- Build and manage CI pipelines to automate testing, ensure quality, and improve collaboration between teams.
- Implement secure, compliant delivery pipelines that enable rapid, reliable deployment and operational efficiency.

EXAM DETAIL

- Exam version: V1
- Exam series code: AT0-001
- Number of questions: Maximum of 60, multiple-choice and performance-based
- Duration: 60 minutes
- Passing score: 600 (on a scale of 100–900)
- Languages: English
